All **Mardome Reflex**

With this assembly, you will receive:
Reflex Dome Fixings and Accessories

Mardome Installation

⚠ Please note that all *Health and Safety Regulations* must be followed on site throughout the installation process.

c **Reflex Dome Adhesive Seal Application**

Reflex dome on to existing upstand

a Install roof covering to cover existing upstand in accordance with manufacturer's installation recommendations.

⚠ N.B. It is important that there should be no excessive build up of layers, the top surface should be level and free from any protrusions or projections which may prevent adequate weather proofing.

b Carefully remove dome from its packaging.

c Affix the supplied self adhesive seal to the underside of the flange on the dome.

⚠ N.B. Protect top of dome using cloth, sheet or foam packaging.

d Pre-drill holes through dome on all sides at 5mm diameter.

See above **Fixing Quantities** table for the correct quantity of holes required for the size of the dome.

⚠ N.B. Length of side refers to the nominal dome size (equivalent to external size of existing upstand.)

e Place dome squarely on top of the completed upstand.

f Fix the dome to the existing upstand. Use 55mm dome fastener with fastener button and both steel and foam washers.

g Fit fastener caps to each button.
